ADEL KANDI

Ottawa, ON | (438) 863-0374 | adelkandi68@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Full-stack developer with hands-on freelance experience across networking and web development, a technician background from Algérie Telecom, and a growing portfolio of independent full-stack projects, including an in-progress AI-integrated planning application built on ASP.NET Core and PostgreSQL. Completed a Diploma in Web Development at Algonquin College (GPA 3.59) and a Bachelor's in Telecommunications. Comfortable moving quickly across frontend, backend, and data layers, and motivated by mission-driven engineering work.

TECHNICAL SKILLS

Frontend: React, TypeScript, Vite, JavaScript, HTML, CSS, Tailwind CSS
Backend: ASP.NET Core (.NET 9, Minimal APIs), C#, PHP (Laravel/MVC), Python (Flask, REST APIs)
Data & Cloud: Entity Framework Core, PostgreSQL, Supabase, MySQL, MariaDB, SQLite
APIs & Auth: REST APIs, OpenAPI, OAuth 2.0 (Google), Dependency Injection
Tools & DevOps: Git/GitHub, Docker, Linux, Azure DevOps, CI/CD basics, SDLC (Agile), xUnit, ESLint, Vercel, Railway

WORK EXPERIENCE

Freelance Developer & IT Consultant 2022 – Present
Independent / Fiverr, Remote | Occasional projects

- Designed and implemented a network for a client in France — multiple switches, DHCP/DNS servers, a web server, and wireless access points with role-based privileges for staff. Delivered through Fiverr.
- Diagnosed and resolved PHP backend issues on an e-commerce site, and optimized page load and refresh performance using image compression techniques.
- Redesigning a local gym's website and building a client portfolio site, plus ad hoc bug fixes for other small businesses.

Trainee Network Technician — Algérie Telecom 2022 – 2023
Béjaïa, Algeria

- Installed and maintained ZTE optical fiber network equipment as part of a 4-person team (one engineer, several technicians), planning and mapping new fiber-line routes for neighborhood builds using network design software.
- Went on-site to install lines and troubleshoot connectivity issues directly with customers, diagnosing problems alongside senior technicians to keep connections reliable.

PROJECTS

DaVinci — AI Field Dispatcher 2026
Built at an AI Tinkerers hackathon

- Built an autonomous AI field-dispatching system using Next.js, TypeScript, OpenAI, Twilio WhatsApp, and Supabase, converting customer text, voice, and images into structured service requests.
- Implemented AI-driven job extraction, urgency classification, deterministic workflow validation, technician dispatch, and event logging, with human approval before assignment confirmation.

Rise Plan — Full-Stack AI Planning Assistant (In Progress) 2026
Personal Project | GitHub: github.com/adelkandi/rise-plan

- Building a full-stack AI daily-planning assistant (React/TypeScript, ASP.NET Core .NET 9, EF Core, PostgreSQL/Supabase) with a provider-agnostic AI planning layer and Google OAuth 2.0 calendar integration.

ITSG-33 Security Assessment & Authorization (SA&A) Tracker 2026
Web Development Program, Ottawa, ON

- Collaborated with a real government stakeholder to deliver a compliance web app managing ITSG-33 security controls, evidence tracking, and Authority to Operate (ATO) workflows.
- Built the data layer in Laravel with Blueprint YAML schema generation on a MariaDB backend.

Plan A — Student Productivity Web App 2026
Web Development Program, Ottawa, ON

- Built a full-stack task and schedule management platform in PHP using the MVC pattern, with authentication, a dashboard, and a responsive UI. Live demo: plan-a.up.railway.app

EDUCATION

Diploma in Web Development and Internet Applications 2025 – 2026
Algonquin College, Ottawa, ON | Completed | Cumulative GPA: 3.59

- Relevant coursework: Database Systems & Concepts; Database Design & Administration; Web Programming I & II; Web Applications Development; Network Operating Systems; Web Security Basics.

Bachelor's in Telecommunications 2020 – 2023
Université Abderrahmane Mira of Béjaïa, Béjaïa, Algeria

- Relevant coursework: Network Administration; Digital Logic Design (VHDL, FPGA); Computer Systems & Interfacing (CPU architecture, Assembly); Electronics & Analog Circuits (AM/FM); Antennas & Wave Propagation.

CERTIFICATIONS & LANGUAGES

Python Programming (2021), AI in the Classroom (2021) | English & French (Professional)
